A Finmeccanica Company

NITEWORKS

BnTF 2020

NORDEFCO is a cooperation

- Not an alliance!

- Increased and credible operational effect through borderless cooperation
- Maintain a large width and enough depth of military capabilities
- Shared production - to maintain national operational effect

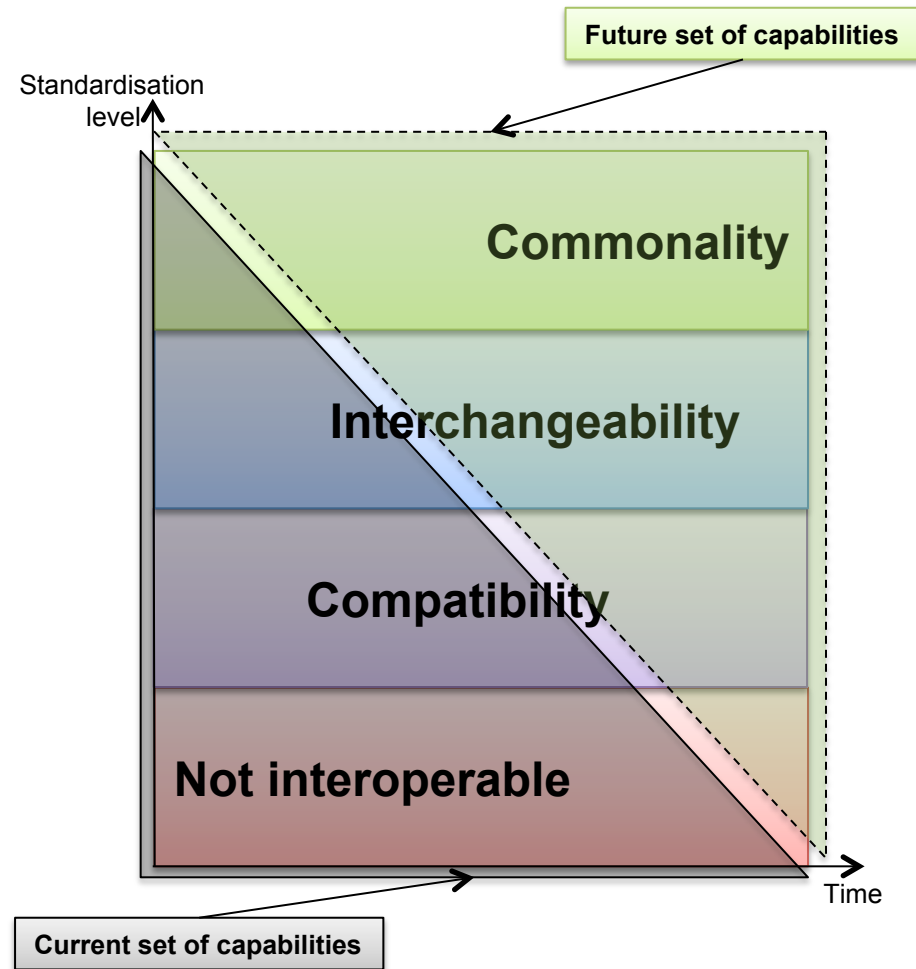

A military helicopter is flying in the sky above a desert landscape. In the foreground, a group of soldiers is standing in a line, and another group is walking towards the right. A military vehicle is parked on the right side of the image.

The co-operation's of the past

- Archer
- Gender centre
- Training
- Camps

The BnTF 2020

- The pre-study gave at hand...
- The Doctrine directed us towards
... ..standardisation
as an enabler for
 - cost savings
 - increased operational effect

Not only standard equipment

... but standard organisations and procedures!

Structure and flexibility gives modularity

2013 Chevrolet Malibu, Holden Malibu (SWB)
2007 Buick Riviera
2007 Opel GTC
2006 Saab Aero X

Structure and flexibility gives modularity

Collaboration gives new effects

- Can we afford to have designated units only, with respect to materiel, SOP/TTP's, or...
- How many concurrent BnTF's/TF's
- Interoperability of supporting business

Standards vs. Caveats

FMV

...and in reality

Our experience so far

- Always start with your clients perspective, it is the business which is important, not the architecture
- National caveats are there, but...
- Don't loose yourself...
- Always reuse whatever you can
- The structure gives traceability to capabilities
- It gives a common systems understanding
- The results and knowledge lives over time and between participants ...
