SCC Global Limited

Michael Fuller MBE MBA

SCC Global

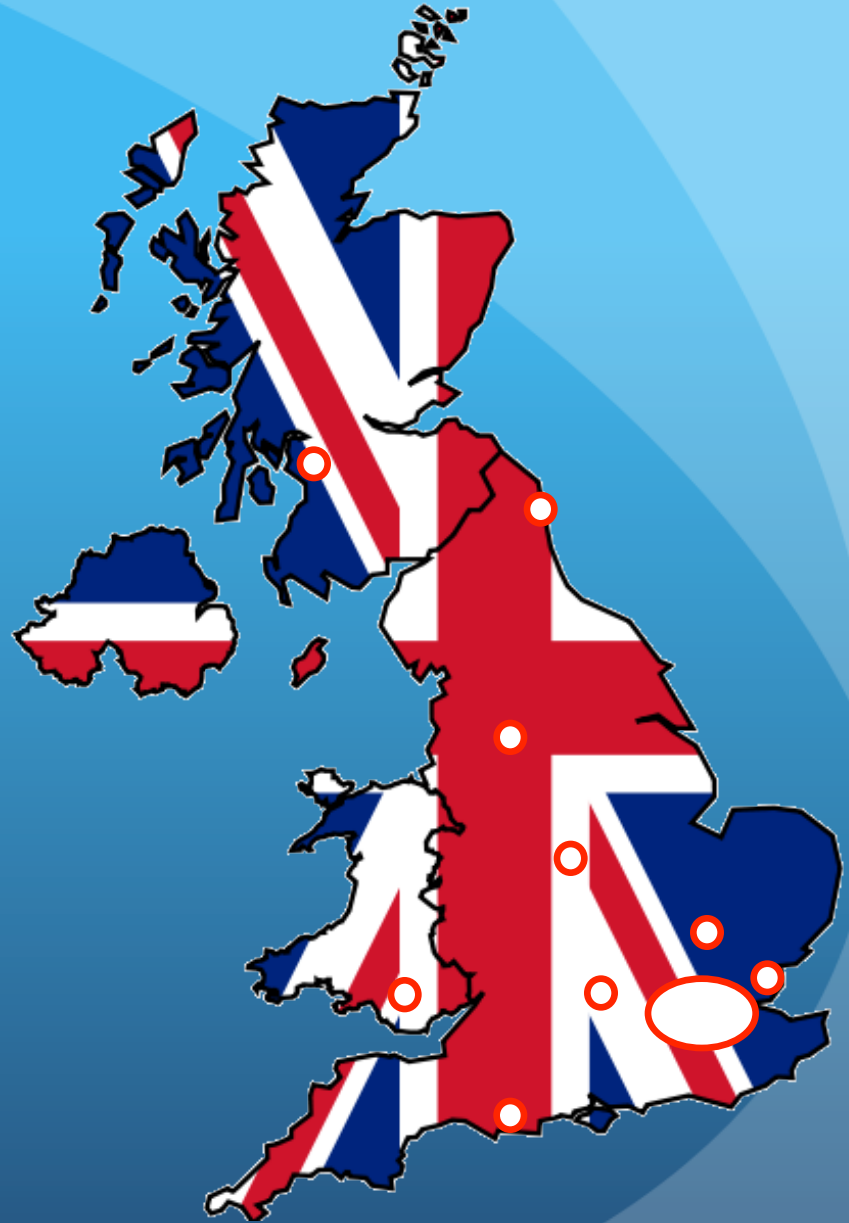

minimising risk | managing resources | maintaining reputation

The Single Statement of Need

A fully integrated national Olympic security coordination capability, in accordance with Olympic Safety and Security and Command, Coordination and Communications Strategies, that will enable the multi-agency coordination of safety and security operations throughout the UK during the 2012 Olympic and Paralympic Games

The Challenge

- Scale
- Duration
- Multiple locations
- Risks

SCC Global

minimising risk | managing resources | maintaining reputation

Threats and Risks

- Terrorist activity
- Criminal activity
- Public order
- Major incidents and natural events
- Crowd management
- Transport challenges
- Resources overstretched
- Damage to UK reputation

The Olympic C3 Architecture

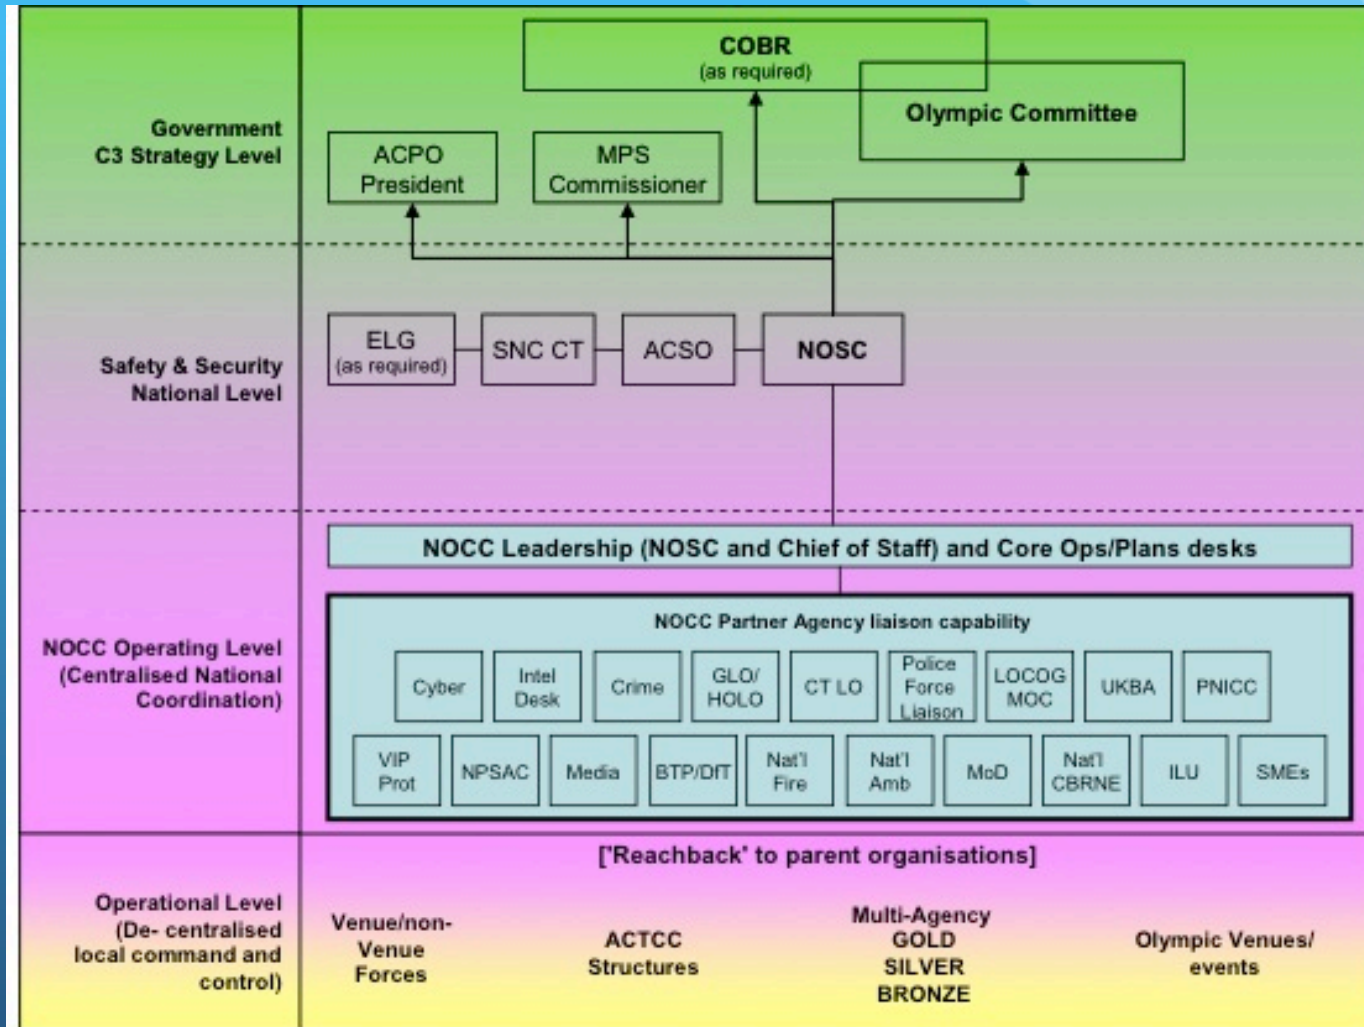

Version 0.9.4

SCC Global

The Strategic Context

SCC Global

minimising risk | managing resources | maintaining reputation

Decision Support Architecture

A systems approach that integrates:

- People/organisations
- Business processes, intelligence and information
- Technology in an enabling capacity

Information and Intelligence 'Exchange'

The Intelligence and Information Requirements:

- Structural and organisational understanding
- Technology in an enabling capacity
- The strategy for intelligence and information exchange
- The information and intelligence 'need'

Capability Integration

- An integrated approach to delivering the wider capability
- Focused on the Single Statement of Need within the context of the C3 Strategy and CONOPS
- Progressive assurance throughout
- Accountable delivery 'owners'
- Linking contractual and capability acceptance milestones

What did we Learn?

- Culture
- Resilience and simplicity
- Operational design
- Transition, readiness and acceptance
